GLOCK Certified Armorer Policy on Professionalism

GLOCK Certified Armorers have long been known for their professionalism and expertise. The purpose of certification of GLOCK Armorers is to facilitate the professional handling of required maintenance of GLOCK pistols. More specifically, it is our intention that only GLOCK Certified Armorers work on GLOCK pistols. It is the belief of GLOCK, Inc. that this policy best ensures the safety of GLOCK customers and the integrity of GLOCK pistols.

In furtherance of this policy:

1. GLOCK, Inc. encourages you to use the designation "GLOCK Certified Armorer" on your business cards for yourself and your business.
2. GLOCK factory parts are to be used for customer requested maintenance. GLOCK factory parts are not for re-sale.

GLOCK Certified Armorers who deviate from these standards of professionalism will not be invited to renew their certification. This includes installation or recommendation of aftermarket parts or the polishing or modification of factory parts. Any and all licenses previously granted for use of the trademark(s) and/or logo(s) will be immediately rescinded upon deviation from this policy.
